

## **RSG 2021 COVID-19 PROTOCOLS**

### **Daily Health Screen**

You will be asked to record your child's temperature on our daily health form. Look for symptoms, including cough, shortness of breath, chills, muscle pain, sore throat, loss of taste or smell, diarrhea, and nausea/vomiting.

### **Food**

We will provide prepackaged, nut-free snacks and individual water bottles each day. Gluten-free options are also available. Please DO NOT have your child bring food/drink.

### **Activities**

With appropriate restrictions in place, each day will include fun outdoor activities. Crafts, lessons, small group discussions, and masked singing are indoors.

### **Health and Safety**

Students will remain in small groups during RSG, limiting their exposure to others. Hand sanitizer will be required upon entering and exiting each room. We will practice social distancing and have identified a place to isolate a sick camper.

### **COVID-19 Emergencies**

If we have a camper, volunteer, or staff member test positive for COVID-19, RSG families will receive both an email and phone call from our staff. RSG would be cancelled for the remainder of the week.

### **Masks**

Each student is required to wear a mask during RSG. Students may be permitted to remove their masks outside only with permission.

### **Personal Items**

There will be no sharing of items during RSG. Students will have labeled bins to drop off personal items such as keys and cell phones. Craft and activity items will be given out individually. Please remember, no food items or water bottles allowed.

### **Sanitization**

We will be cleaning and disinfecting the building and frequently-touched surfaces before, during, and after each session of RSG, following current health and safety guidance.

### **Field Trips**

Unfortunately, due to current COVID-19 restrictions, we are not able to offer field trips for our RSG campers this year.
